

Future Innovation Use Cases

Present your innovative products live and in action to a large audience

Which use cases are we looking for:

- Prototypes (vehicles, air cabs, etc)
- Assistance systems and sensors (with and without road approval)
- Autonomous driving
- Special driving or steering systems
- 5G connectivity
- Smart city infrastructure
- Hydrogen refueling and charging infrastructure
- More ideas from your company...

GET IN TOUCH WITH US:

What do we offer:

- Individual demo area on the exhibition grounds
- Temporary or permanent implementation of your product

Simon Schönberg
simon.schoenberg@vda.de

Tell us more about your use case:

- Which product do you want to demonstrate?
- How does the demonstration proceed?
- What are the requirements for your specific demonstration?
(space, technical or logistic requirements, etc.)
