Jürgen Mindel,
Managing Director, VDA

Dear visitors,

Welcome to Munich! IAA MOBILITY is the world's leading platform for mobility concepts of all sorts. Its debut in 2021 — with more than 400,000 visitors — was, without question, an absolute success. We want to carry that success over to this year, and ideally do even better. As a result, we've made a few adjustments and taken your feedback into consideration.

The innovative, holistic concept, with a variety of new exhibitors and partners from the areas of tech and sustainability as well, was a bold but correct step that brought sectors closer together, and made hundreds of thousands of visitors excited and curious about mobility.

The event will continue to be split into the four popular formats IAA Summit, IAA Open Space, IAA Experience, and IAA Conference. This year, we're offering one thing above all else: all sorts of opportunities to experience and try out pioneering mobility concepts first-hand. We also want to use 2023 to focus on one particular topic: In line with this year's slogan, "Experience Connected Mobility", you will learn how smart, interconnected driving works in practice and why tech and mobility are two sides of the same coin.

WELCOME IAA MOBILITY 2023

Tobias Gröber,
Divison Manager,
Messe München GmbH

IAA MOBILITY should also be a place for constructive dialogue, a place where people can share their perspectives about the most innovative and clever ideas for the mobility of the future. Our message is clear: We want to shape mobility together. We're happy to claim that as our promise and our duty.

Come along and get your own idea of how mobility will look in the future.

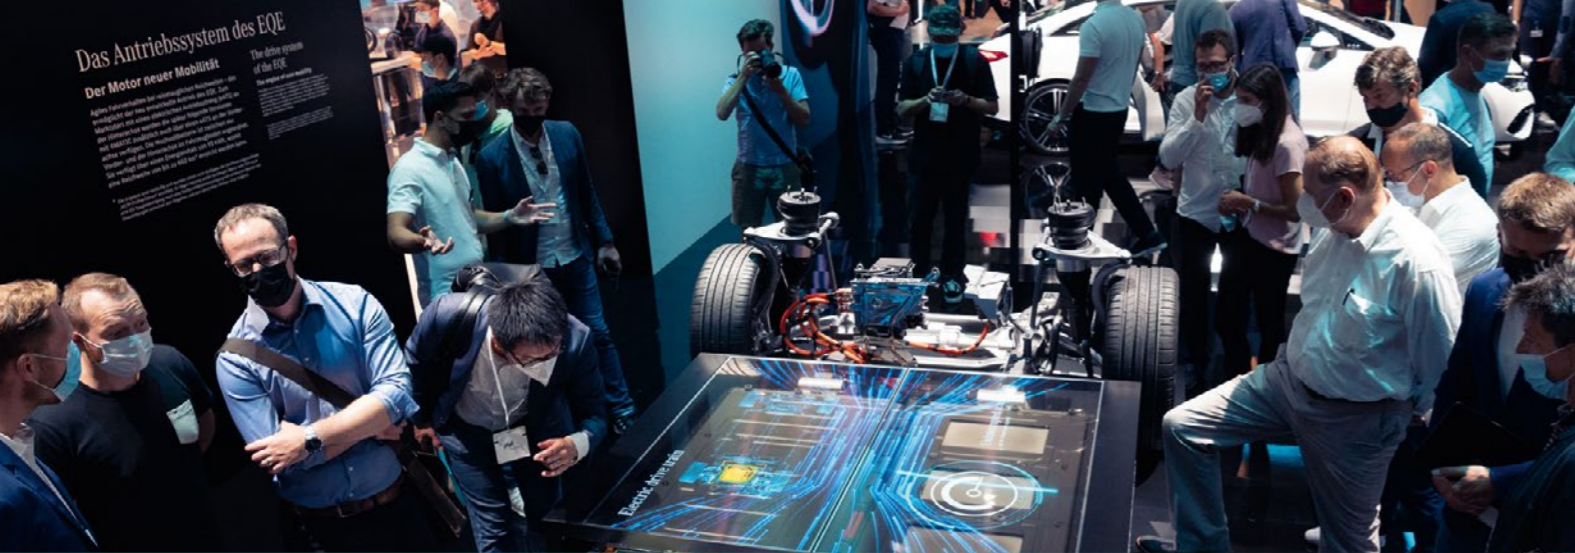

Regards,
Jürgen Mindel: Managing Director, VDA
Tobias Gröber: Divison Manager, Messe München GmbH

SUMMIT & CONFERENCE X OPEN SPACE

IAA Summit

The IAA Summit at the Munich Exhibition Grounds is the B2B mobility hotspot of the year, and it's where leading innovators in the scene present their products and concepts for the mobility of the future to professionals and journalists from September 5 to 8, 2023 — all interconnected and sustainable.

As a leading global mobility platform, this year's IAA MOBILITY is, more than ever before, a forum for discourse about the most innovative and clever ideas for the future of mobility. And what better place for this than the IAA Conference, the heart of the Summit, where industry experts and visionaries can meet with decision makers from the areas of policy and business?

You, as a professional, will be there in person when more than 500 international speakers share their ideas and experiences in keynotes, fireside chats, and podium discussions across three stages. We also offer you the opportunity to speak with the experts yourselves at the Visionary Clubhouse and the Smart Mobility Space.

Are you among those who don't just want to see the innovations, but would rather try them out for yourself? That's also possible. From test drives with climate-neutral cars, Cycling & Micromobility Parcours, and the Bus Shuttle, the IAA Experience format gives visitors numerous opportunities to experience innovations from across the mobility industry up close and personal.

IAA Open Space

Are you interested in being part of one of the world's largest mobility events? It couldn't be easier, because at the IAA Open Space from September 5 to 10, 2023, we are bringing the most exciting mobility solutions of the future right where they belong: the heart of Munich, where visitors can see them first-hand.

The Open Space — surrounded by art, music, cultural offerings, exciting services for children, and live entertainment — is a unique platform where mobility fans from around the world can discover new and sustainable mobility and even try out the most exciting models themselves.

Every attraction in the Open Space — which will cover Marienplatz, Odeonsplatz, Ludwigstraße, Wittelsbacher Platz, Max-Joseph-Platz, Hofgartenstraße, Residenzhöfe and Königsplatz in the heart of Munich — will be accessible and completely free of charge for all visitors, including the popular test drives in cars, bicycles, and e-scooters! Unlike the trade visitor event at the convention center, no tickets are required for the Open Space. So come watch downtown Munich turn into the world's largest stage for the mobility of tomorrow.

Summit: Mobility is evolving — are you, too?

Enter a world full of trends and breakthroughs in all kinds of mobility!

Cars, bicycles, unicycles, vehicles, eScooters, mobility providers, tech, and everything that moves you forward is presented in 6 exhibition halls with around more than 600 participating exhibitors, including aws, BMW, Capgemini, Mercedes, Mobileye, Mocchi, Qualcomm, Renault and SAMSUNG.

From established companies to startups, the IAA Summit is the most important industry meeting for visionaries, stakeholders, and decision-makers and is THE place to be for world premieres, innovations, and solutions in the mobility sector.

It is an international platform with the focus on shaping the future of mobility by connecting diverse segments, mobility enthusiasts, experts, and the community of this industry. Combined with technological knowledge, inspirational ideas, and thoughts around mobility showcased by more than 500 speakers from the sectors mobility, politics, society, and science at the IAA Conference. Alongside the IAA Conference, various IAA formats, networking options, Expert Events, and company presentations, several award ceremonies will take place — “International Cargobike of the Year (CABOTY)” on September 7 and “Firmenauto des Jahres” on September 9 and the AutoVision Film Festival.

Are you interested in inspirational presentations, keynotes, and discussions? Hall A1 with its Main Stage of the IAA Conference is your source of insights to the topics of mobility and a place to socialize at the Networking Area sponsored by Allianz.

In Hall A2, a glimpse of the future of mobility will be discussed with leaders and experts from around the world in the dialogue area “Visionary Clubhouse”. It is filled with various partners and visions, and covers topics like urban mobility, disruptive technologies, and bicycles.

In Hall A3 we discover new ways of getting around. On the Cycling & Micromobility Parcours you can test bicycles, e-scooters, or cargobikes. Exploration continues in this hall - with the country community stands in the Boulevard of Nations. The Blue Stage will feature further sessions and keynotes and highlight the thematic tracks of IAA MOBILITY. In addition, the Startup Area, located in this hall, will unveil new approaches and innovative mobility concepts.

The Startup Area extends into Hall B1. In this hall, the Smart City Area will present visions for sustainable and mobile cities as well.

In Hall B2, alongside the third Startup Area, the IAA Mobilitython is held which includes real development challenges set by companies for startups. Furthermore, the Yellow Stage is part of this hall and will be devoted to the topic of transformation of mobility.

Hall B3 is dedicated to the topics of future mobility on the second dialogue area “Smart Mobility Space” presented by PwC. It is a space for creation, collaboration — and coffee. In addition, the fourth Startup Area, located in this hall, will show new approaches on the future of mobility.

At the IAA Summit, together we will transform and design the future of mobility!

Startups and IAA Mobilitython

Want to see innovations you have never seen before? Around 100 startups spread over 4 areas will meet experienced and inspiring investors at IAA MOBILITY.

Up-and-coming young companies with creative mobility ideas are one of the highlights of IAA MOBILITY, presenting themselves alongside the big players in the industry in the Summit Halls A3, B1, B2 and B3 on the exhibition ground.

It is the participation that counts! In addition, creative talents get the opportunity to develop solutions to challenges posed by established companies in the industry at the IAA Mobilitython competition organized by prototype.club. The startups present their results daily and the respective winner of a challenge receives a follow-up assignment with the challenge-setting company.

IAA Career

One industry and many opportunities to put your talents to work. Whether you are a professional, a career changer, or just starting out, gain some insight into the future of careers in the mobility sector at IAA Career. At the IAA Career corner at Entrance West you will find job offers from participating companies.

Developed for both young and established professionals, IAA Career offers the opportunity to find out about job vacancies and career opportunities and to talk face-to-face with companies from the automotive, bicycle, and technology sectors.

Interested parties can schedule job interviews online and hold them outside.

IAA Mobility Meetings

We need mobility to connect with people. These connections can be made by meeting like-minded participants at the Mobility Meetings.

It is an additional complimentary networking opportunity, where attendees can meet up to 5 other professionals in a one-hour slot and exchange opinions on topics of interest. The Matchmaking is organized by Mobility Makers, a network of leaders in sustainable mobility.

Register online here for one of the following sessions:

Wednesday, September 6:
10.00 am - 11.00 am or 1.00 pm - 2.00 pm
Thursday, September 7:
10.00 am - 11.00 am or 1.00 pm - 2.00 pm

Partner & Organizer:

IAA Expert Sessions

Expert sessions are informative and interactive sessions led by industry experts or thought leaders in a particular field. These sessions aim to provide valuable insights, share expertise, delve deeper into a certain topic, and facilitate knowledge exchange among participants.

The Expert Sessions at IAA MOBILITY are held by exhibitors and companies. The registration link for an Expert Session can be found online in the Summit program.

Choose the Expert Session you are interested in and register directly via the exhibitor's registration link. Check the IAA website and/or app for the daily program.

All expert sessions take place in conference room B11, which is above Hall B1.

Networking Tours here:

Expert Events (full day events) @ IAA MOBILITY

■ World New Energy Vehicle Congress (September 6, 2023)

Join the most important German-Chinese event this year, the World New Energy Vehicle Congress on September 6, and be part of the most influential industry event. The event takes place in room 14, ICM, and starts at 10.00 am.

Expert Events @ IAA MOBILITY

■ Emerging Markets in Africa: A Continent on the Rise (September 6, 2023)

At the IAA MOBILITY the German Association of the Automotive Industry (VDA) and the African Association of the Automotive Industry (AAAM) are organizing in the framework of their partnership the third "Africa Day", comprising of a panel session and a networking lunch. 90 minutes of high-level exchange between representatives from the African and the German automotive industry and governments, in which the current status and future of the automotive industry in Africa will be presented. The event will focus this time on the following key countries and their cooperation within Africa: South Africa, Ghana, Tunisia, Kenya, Egypt, as well as the AfCFTA Secretariat. The event takes place in Room 11, ICM, and starts at 10.00 am.

■ IAA Branchenforum — Transformation of mobility in the shadow of economic challenges – implications for the supplier industry (September 6, 2023)

The VDA and IKB (IKB Deutsche Industriebank AG) invite you to the joint industry forum in Room 21, ICM. The special challenges of financing the transformation will be discussed by top management from the supplier industry. Further information and registration: <https://www.ikb-events.de/iaa-2023/>

■ Firmenauto Testdrive Tage — ETM Verlag (September 7, 2023)

During the Firmenauto Testdrive Tage, presented by ETM Verlag, producers invite visitors for a test drive on September 7. You are welcome to join them in hall C2.

■ Sustainable individual mobility: Only with us!, by Zentralverband Deutsches Kfz-Gewerbe e.V. (September 7, 2023)

What contribution can car dealers make to sustainable individual mobility? And not only that: the expectations placed on car dealerships and garages also include the orientation of the entire company towards resource conservation and the development of a sustainability strategy. The panel takes place in room 4, ICM.

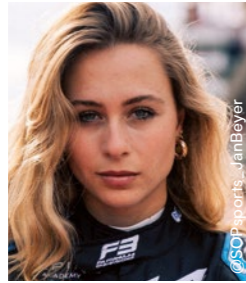

■ Uncharted: the Global Automotive Outlook, by S&P Global Mobility (September 7, 2023)

As the autos industry 'quietly' slips out of the shackles of the semiconductor crisis, its near-term trajectory will be distorted but largely positive. Going forward the future is bi-polar where the pace of change will be driven by a complex interplay of new forces at a level of intensity unfamiliar to the industry and consumers. Join us in person at Room 5 at the ICM for our annual Fall Client Briefing Series, live onsite at key locations around the world. Listen to our experts' predictions for the global automotive industry.

IAA Conference Stages

As of August 2023 - subject to change

What to expect at IAA MOBILITY 2023

Why should you be present for the largest mobility event of the year? The answer is simple: IAA MOBILITY is the platform for modern mobility in all its facets. It is the world's leading platform for mobility, sustainability, and tech. Nobody will leave unsatisfied. From emission-free cars, the latest generation of e-bikes, and urban-friendly cargo bikes and e-scooters, we're bringing everything together at IAA MOBILITY in accordance with the slogan, "Experience Connected Mobility". All mobility providers will be coming together so that you get the best possible insight and overview.

The best part is that you have the opportunity to try out a wide range of the latest developments during the test drives, both as a trade visitor at the trade fair center and as a visitor to the Open Space, at popular spots like Königsplatz and Odeonsplatz in the heart of Munich. But the location isn't the only highlight: The Open Space is completely free of charge for all visitors, including the test drives!

What else can you expect? Nowhere else is it so easy to speak directly with experts and decision makers from the industry. Professionals visiting the IAA Conference benefit from the expertise of over 500 international top speakers, and mobility enthusiasts from around the world can bring their own ideas and questions about the mobility of the future to the Citizens Lab at Marienplatz.

The largest mobility event of the year will also include a rich lineup of events for families as well as live entertainment, turning IAA MOBILITY into an unforgettable experience.

Enter the IAA MOBILITY Metaverse

What if you saw drones that haven't even been built yet flying across the sky over Munich? Or if you could see giant robots that explain sustainability facts? And what if anyone could easily enter the Metaverse with just their smartphone?

The IAA MOBILITY Metaverse connects reality to the digital world and makes mobility, culture, and innovation an all-dimensional experience for everyone. Our innovative and gamified digital experiences open up an entire parallel universe for visitors to the trade fair — right in the heart of Munich.

A whole new universe in your hands.

Guided XR-Tour

As easy as Pokémon Go: Our digital scavenger hunt! The Guided XR Tour connects all hot spots of the IAA Open Space through this fun and immersive digital experience. Along the way you will find engaging AR elements, interactive quizzes and gamified information hubs from your favorite exhibitors. The experience is customizable and will cater to your interests. Start your personalized journey from any point in the Open Space — all you need is a mobile device!

Highlight: The XR-Dome

The heart of the IAA MOBILITY Metaverse is located on the iconic Königsplatz. The XR-Dome fully immerses visitors in a mix of augmented and virtual reality. IAA MOBILITY and its partners have created a digital exhibition — your own little mobility universe all in one place. There are more digital experiences awaiting you around the XR-Dome, such as Meta's extraordinary Metaverse innovations.

For all art enthusiasts

In the run-up to IAA MOBILITY, we launched a global competition for digital artists. Together with our partner XR Hub in Munich, we've curated the most innovative, captivating, and mesmerizing art pieces and installed them along our guided XR Tour. So keep an eye out!

» To start your personal, Guided XR Tour experience, visit the IAA Open Space and keep your eyes peeled for these QR codes!

IAA Open Space

Tomorrow's mobility solutions at the city's most famous locations.

Mobility meets everybody

The general public will be able to experience the mobility of tomorrow at the IAA Open Space in downtown Munich. Königsplatz, Marienplatz, Max-Joseph-Platz, Odeonsplatz, Wittelsbacherplatz, Ludwigstraße, Hofgartenstraße, and the Residenzhöfe will become exciting locations to experience the latest innovations, in the middle of other music & entertainment offerings, family services, food, and live entertainment. The IAA Open Space is a festival for trailblazing mobility, a space for dialogue, and a testing area all at once.

Experience Connected Mobility

Private visitors will have various opportunities to test out products and services at IAA MOBILITY 2023, from our Cycling Track in the English Garden and test drives with participating vehicle manufacturers to Future Innovation Use Cases in various locations and our shuttle bus services. The IAA Experience offers every visitor the opportunity to try out the mobility of tomorrow for themselves.

Königsplatz Stage

Königsplatz will hold the largest exhibition space and the largest stage in the IAA Open Space. It will also turn into a concert venue with incredible artists on Tuesday, Thursday, and Saturday evening.

Citizens Lab

The Citizens Lab is the place for dialogue and workshops about mobility and the development of living space in the city and in the country. Non-trade visitors will be able to discuss the future of mobility with representatives from the areas of business, science, and policy.

Family Trail

Our youngest mobility enthusiasts will get what they're looking for at the Family Trail. From completing an exciting track or taking the first steps toward a driver's license in the children's driving school, there are no limits to how mobility can be made fun for everyone.

Cycling Activation Area

300 m² of activation space for optimal cycling fun. Numerous agenda items with a particular focus on cycling, entertainment, interaction, and testing will be held at the IAA Open Space Cycling Activation Area for the entire duration of the event.

Food at the IAA Open Space

With the slogan, "Urban meets tradition," the IAA OPEN SPACE offers a culinary experience with food trucks, beer gardens, and comfortable spots to kick back and relax.

» IAA MOBILITY 2023

IAA Experience. Experience the future of MOBILITY.

IAA Experience.

Experience the future of MOBILITY.

Get a feel for climate-neutral mobility of the future up close and personal with test drives, test tracks, and Future Innovation Use Cases at the Messe München and in downtown Munich.

IAA Summit at the trade fair center:

Hall C2 contains the **starting terminal for test drives**, where you can try out the latest car innovations from various exhibitors.

Numerous providers will be present at the **Cycling & Micromobility Parcours**, and you will be able to test their innovations. A range of exhibitors will be presenting their innovative products — from assistance systems, autonomous driving, smart city infrastructure, charging infrastructure, and more — at multiple locations across the IAA Summit grounds. In Hall C2, you will find test drives as well as two **charging infrastructure use cases** from the exhibitors Mahle and Autel. The Freigelände Nord will have Luminar and KONTROL as they demonstrate their innovations, while a **mobile H2 station** will be located in the outdoor area P8.

The IAA Summit and IAA Open Space will be connected by a **shuttle bus line**, which will also allow you to experience the latest innovations in the bus segment. The itinerary starts at Entrance West and Entrance Nord at the IAA Summit, and takes you directly to the IAA Open Space at Gabelsbergerstr. 35 in downtown Munich.

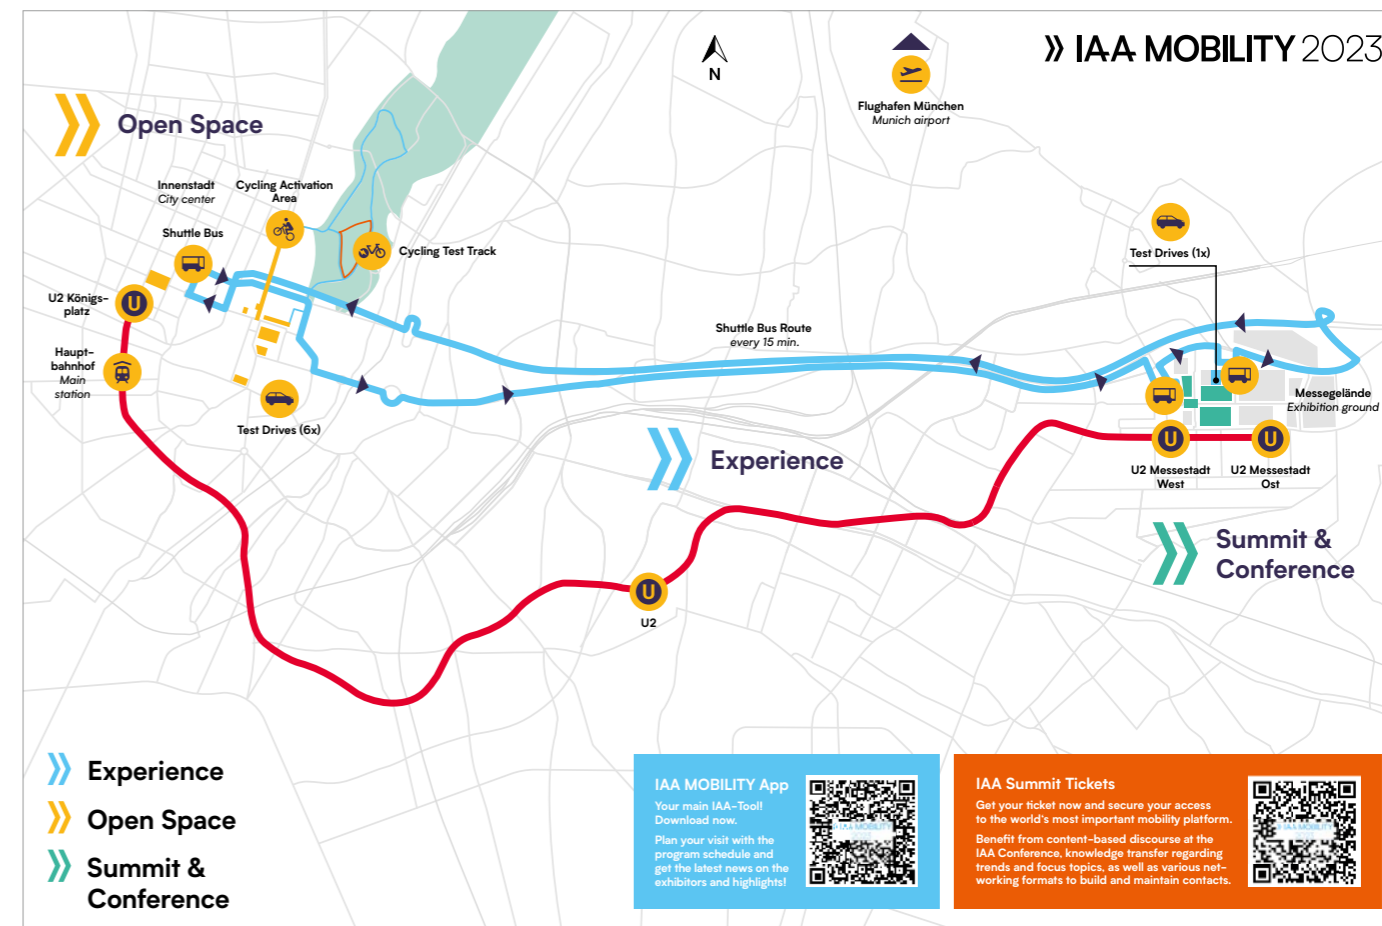

IAA Open Space downtown:

On the **Cycling Test Track**, you can try out the latest innovations on two tracks of different length in the English Garden. The products from the participating exhibitors can be rented at their booths on Ludwigstraße and Hofgartenstraße. Access points are at Hofgartenstraße or Veterinärstraße, and the routes are marked.

Participating vehicle manufacturers will offer **test drives throughout the Open Space**, where you can start your own personal test run. You will find further information about the registered exhibitors, starting point, testable vehicles, and possibility of pre-booking a ride from some exhibitors in the official IAA MOBILITY app.

Numerous exhibitors will be presenting their innovative smart city infrastructure and charging infrastructure products throughout the IAA Open Space.

You can find further information on the IAA Experience and registered exhibitors in the official IAA MOBILITY App.

» IAA MOBILITY 2023

Take advantage of the IAA MOBILITY 2023 App!

If you want to keep all the information about IAA MOBILITY 2023 conveniently in your pocket, you should definitely download the free IAA App in the app stores for Apple iOS and Android smartphones.

Everything you need – in the official app.

- You can find all relevant information about exhibitors, products, events, experiences and the conference program.
- You can see all the vehicles that are ready for test driving.
- You can navigate on your own with the help of a dynamic map.
- You can personalize the app content according to your interests.
- You can stay updated via notifications, such as for joining live streams.
- You can connect with other professionals via matchmaking, if you are a ticket holder.

Download the IAA MOBILITY App in the app store (iOS/Android)!

Premiere of the "MOTORWORLD Mobility Days — The magic of cars"

Exclusive special exhibition, marketplace and Motortreff meeting on September 3–6, 2023 in the run-up and parallel to the IAA MOBILITY.

With the "Motorworld Mobility Days", Motorworld München is staging the magical world of mobile passion. The indoor and outdoor trade fair is the perfect trading floor for manufactories, hypercars and supercars, limited editions, sports cars, classic cars, classics-to-be, bikes, accessories, lifestyle products and services, and at the same time serves as a meeting point for the scene.

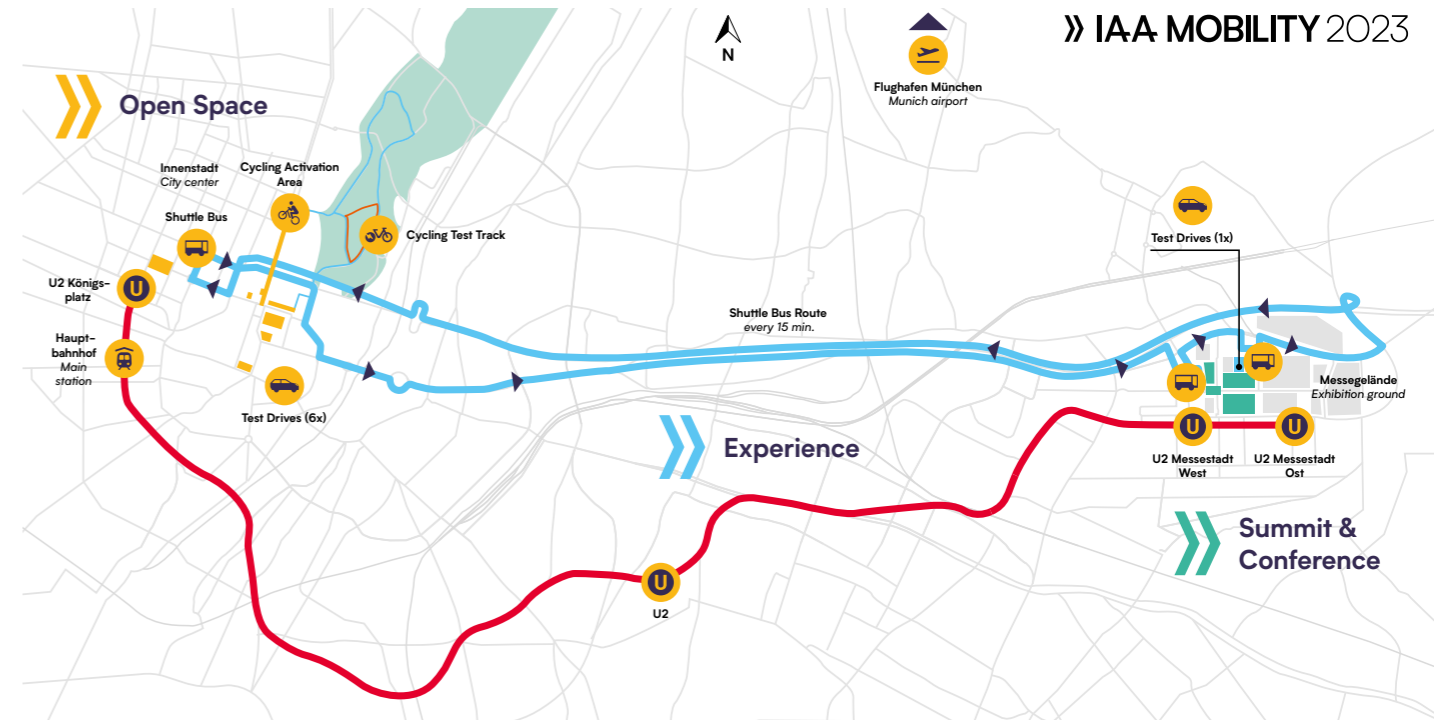

The "Motorworld Mobility Days" indoor and outdoor trade fair focuses on the experience, the trade, the international network, and the perfect staging of vehicles distinguished by their quality, performance and history. Car guys and girls with petrol in their blood and electricity in their veins have the opportunity to talk about the most beautiful hobby in the world. Visitors will find a stylish selection of exclusive items together with everything that goes with them.

To kick off the "Motorworld Mobility Days", Motorworld München invites visitors to a public Motortreff meeting on Sunday, September 3, from 10 a.m. to 6 p.m.

MOTORWORLD Mobility Days
September 3–6 2023 (Sunday — Wednesday)
daily 10 a.m. — 6 p.m.
From 6 p.m. Motorworld # Evening Meet Ups

MOTORTREFF
September 3 2023 (Sunday)
10 a.m. — 6 p.m.

MOTORWORLD München
Am Ausbesserungswerk 8
80939 München

Getting to IAA MOBILITY 2023

Summit:

General recommendations for arrival

- Messe München is directly connected to the subway stop Messestadt West on the U2 subway line. From the main train station, you can reach the exhibition center in about 20 minutes without changing trains.
- Take the S2 to Riem station. From there, the bus line 190 travels to Messestadt West. Alternatively, you can reach the West Entrance to the exhibition grounds on foot in about 15 minutes.
- From the airport, take the S-Bahn lines S1 and S8 and change to the U2.
- By car, you can reach us via the A94 motorway by taking the München Riem exit (Exit No.5). Already on the highway you will be guided by the signs to the appropriate parking areas.
- You can use the parking garage West as well as P1 North on the exhibition grounds for vehicles over 2m.
- The fixed price for a single taxi journey to the exhibition center from the airport is 85 euros, from the main train station 39 euros.

Open Space:

You can get to IAA Open Space in Munich City Center

- by public transport via all central subway (U-Bahn), suburban train (S-Bahn) and tram. Exits will be possible at the main train station Munich and other stations such as Marienplatz, Königsplatz, Odeonsplatz, Königsplatz and Stiglmaierplatz. From there you can reach the Open Space area within 10–20 minutes on foot.
- by car via 7 highways connected by the A99 and the ring B2R: A8, A9, A92, A94, A96, A995 and A95.
- From the airport by suburban rail lines S1 and S8 or Lufthansa Express Bus.
- Parking will be possible in all public park and ride areas and parking garages.
- Local signs will guide you via "IAA Innenstadt".

Only IAA Summit tickets include a public transportation ticket.

Important note

The Visitor Guide lists the exhibitors placed up to the editorial deadline. Subsequent changes and additions will be taken into account in the internet list of exhibitors, provided they are received by the start of the trade fair. No guarantee can be given for the completeness and correctness of the information contained in the Visitor Guide or for the actual presence of the exhibitors listed in the Visitor Guide during the trade fair.
All copyrights and usage rights are held by Messe München GmbH and the Verband der Automobilindustrie e.V. Reprints, including excerpts, as well as any commercial or other use require the express consent of the publisher.
Any liability and damage claims against Messe München GmbH, the German Association of the Automotive Industry or the publishing house commissioned to produce the magazine are excluded in the event of incorrect, inaccurate or inadvertently omitted entries, as well as in the event of incorrect stand numbers, irrespective of whether the cause lies in the exhibitor's documents, late submission or errors in magazine processing or production.
